

SC-00400/58

Copy 2 of 3

15 January 1958

MEMORANDUM FOR: Project Director

SUBJECT : The Attached Paper

1. The changes are editorial:

a. Having the last sentence of paragraph 1 conform to the language of the National Estimates, and

b. Removing the references in paragraph 5 to the study that is under way on launch sites.

2. These changes were effected Monday at the insistence of the Air Force. All copies, including those that went to Hugh Cumming and to General Collins last night at Mr. Dulles' request, now conform to this.

3. I understood from Mr. Wheldon (who got the word from the DCI at the IAC Tuesday morning) that General Collins was to introduce the subject to the Chairman of the Joint Chiefs of Staff precedent to the DCI's talking with him. I also understood from Doris that Mr. Cumming was to discuss the matter with the Secretary of State prior to discussion with the DCI.
